

ELIZABETH CRANDON, WIDOW OF CAPTAIN JOHN CRANDON.

JULY 21, 1842.

Read, and laid upon the table.

Mr. BAKER, from the Committee on Invalid Pensions, submitted the following

REPORT:

The Committee on Invalid Pensions, to whom was referred the petition of Captain John Crandon, presented for and in behalf of his widow, report:

That, from the statement of the petitioner, it appears that he commanded a brig which was chartered by the United States in 1795 for carrying out our consul to the Barbary States, and for other purposes, and that, while so in the service, he was subjected to great hardship and exposure, by which he permanently lost his health.

The committee believe that the claim of the petitioner does not come within the principle of any pension law ever adopted in this Government, and recommend that the prayer of the petition be rejected.
